

THE GAZETTE.

TUESDAY, JUNE 14.

The New York World, alluding to the army of men under the orders of Postmaster General Vilas, suggests that, in a pitched battle, the postoffice department could probably "clean out" the war department. Almost every available demagogue has been given a postoffice. At least every available postoffice has been given to a demagogue.

Mr. Woodworth, as the representative of the city of Waupesa, has offered the incorporation of the Wisconsin Veterans' home the Park hotel, eight cottages and forty acres of land for the home to be established by the Wisconsin department of the Grand Army of the Republic as a donation. The hotel affords accommodations for sixty persons. This is one of the best offers yet made to the association, and it is not improbable that Waupesa may capture the home.

Mr. Mark D. Wilber, United States district attorney for Brooklyn, who is one of Mr. Cleveland's appointees, rejoices in making the statement that in a few months no republicans will be left in office. The statement he makes is very true. Republican officeholders are going out rapidly, not because they are not competent or not because they are not faithful to their trusts, but because their places are wanted for demagogues. This is probably good reason enough, but what does the civil service reformers think about it?

Well, times are changing and so are men and women and colleges. Columbia college has graduated a young woman—a bachelor by degree—who has won as much honor as any young man ever won on graduation day. It is Miss Mary Parsons Haskin. She has learned eight distinct languages—Latin, Greek, English, Anglo-Saxon, French, German, Italian and Spanish. With this she has added mathematics, natural science, botany, astronomy, organic chemistry, historical and political science, art and music. In all these Miss Haskin passed severe tests, and in no case failing to astonish President Barnard. The success of this young woman is a complete refutation of the oft-repeated argument that woman's pursuit and attainment of sound learning in the more difficult paths of knowledge are incompatible with vigorous health.

The Fat Men's club of Binghamton, New York, has issued a card saying that they are going on an excursion to Raritan Island in a few days and propose to pay \$25 and all the expenses to any young couple who desire to get married and will agree to have the ceremony performed in public on the balcony of the hotel at Raritan Island. This may seem funny to some, but to the right-minded it will appear like a profanation of sacred things. It is marriage is to be considered as a joke, and that to have the ceremony performed in the presence of a jeering and gaping crowd of strangers is a legitimate exhibition of fun, the Binghamton fat men are doing well; but inasmuch as marriage is considered as having some sacredness about it, they are doing very much to encourage sacrilege. Probably public sentiment and a decent regard for the sanctity of matrimony will yet cause the Binghamton club to abandon their profane scheme.

There is a good deal of personal and most heresies in such a character as the late Dr. Granville Moody, who had in a large degree the make-up of the late Peter Cartwright. When Dr. Moody was once preaching at a mining town in Ohio, a local democratic politician by the name of McKimney, took exception at some patriotic remarks he made, and threatened to whip him. The preacher kindly advised him not to do such a rash thing, suggesting that he might get hurt. But McKimney met him on the street one day and began the fight, when in a twinkling Dr. Moody grappled with him, got his head "in slouch" and "pounded him until he begged for mercy, when he let him go saying, "I told you, Frank, I might hurt you." To the scuffle they tumbled over a boy and broke his leg. Dr. Moody was as generous and kind as he was brave, and took charge of the boy, saw that he was properly cared for, paid the surgeon's bill in full, and made him that he want to McKimney and made him pay half of the bill. Dr. Moody's advice to the political bully when the boy got well and all the bills had been paid, was of inestimable value to him, for it led to his reformation.

General Bragg will have to be careful or he will stir up the democratic leaders of Wisconsin and put himself against them. The Little General has been in Chicago, and while there he fell into the hands of the newspaper reporters, the most dangerous place a public man can put himself. He thinks Cleveland will stick by his letter of acceptance and not accept a second nomination. The general is in error. Mr. Cleveland has not stood by any of his promises and not stood by his letter of acceptance so far as it relates to a second nomination or anything else. General Bragg is also reported as saying that he knows of no one the democrats can nominate who would carry New York, New Jersey, and Connecticut against Blaine. He thinks Blaine the strongest and most popular man the republicans can nominate, because he "has that kind of magnetism which makes the boys all 'woop it up' for him, and go for him with a rush." General Bragg further says Sherman would be a very poor candidate for the republicans. Probably democrats will not feel bad over Bragg's poor estimate of Cleveland's strength in New York, and certainly republicans do not care for his comparison of Blaine and Sherman, for politically speaking his opinion is much below par since his heavy loss in the last political trade he made.

RUMORS OF AN EXTRA SESSION OF THE LEGISLATURE.

Rumors are heard now and then that an extra session of the legislature will be necessary before the occurrence of another election in order to make various corrections in the law reappointing the state into senate and assembly districts, which was enacted last winter. It is hardly probable, however, that they will be verified. Only one troublesome error has been discovered thus far in the reapportionment law, and that relates to Dodge county. The State Journal says the law provides that the towns of Ashp, Bern, Hubbard, Hartsford, Levan, Oak Grove, Hudson, Theresa and Williamsport, and the cities of Mayville and Janesville and the Fifth and Sixth wards of the city of Watertown shall constitute the Third assembly district of Dodge county. The Fifth and Sixth wards of the city of Watertown are not, however, contiguous to any of the other territory constituting the district, and the state constitution provides that "such districts (assemblies) must be bounded by county, precinct, town or ward lines, must consist of contiguous territory, and be in the compact form as practicable." If the two wards had been omitted entirely from the reapportionment, there would be no trouble, as the law provides that "in case any town, city or ward has not been attached to or included in any assembly district by its proper name or designation or has been omitted from any cause in this act, such town shall be a part of the assembly district in which the adjoining town having the least population in the same senatorial district is situated, and such city or ward shall be part of the assembly district in which the adjoining town or ward having the largest population in the same senatorial district is situated." The embarrassing problem has been submitted to the attorney general, who will take ample time during the present summer in an endeavor to offer a practical solution. No general election occurs in the state till the fall of 1888, therefore there is no particular hurry about the matter. Heretofore when an omission has occurred in the reapportionment, it has not vitiated the whole measure, but has simply had the effect of disfranchising the voters residing in the place omitted, till the legislature reconvened and corrected the error.

CLOSING THEIR LABORS.

ILLINOIS LAW MAKERS ALMOST READY FOR ADJOURNMENT.

Bills Approved by the Governor—Hostile Work of Monday—Exciting Scenes at the Last Day.

SPRINGFIELD, Ill., June 14.—Gov. Oglesby signed the following Senate bills: By Senator Evans, making appropriations for the Elgin insane asylum; Mr. Wheeler, making appropriations for the Kankakee asylum; Senator Gore, making appropriations for the State Board of Agriculture; Senator Southworth, making appropriations for repairs and the completion of the National Lincoln monument at Springfield, Ill.; Senator Gore's making appropriations for the State Board of Agriculture; Senator Southworth, making appropriations for the State Reform school at Pontiac; Senator Eckhardt, making appropriations for the Eye and Ear Infirmary at Chicago.

The Senate Committee on Revenue reported the House Revenue bill with amendments, and recommended that the bill, with amendments, pass. The Committee on Penal and Reformatory Institutions reported favorably the House amendment to the Senate bill making an appropriation for the expenses of the Southern Illinois Penitentiary by providing for the employment of convicts whose terms will not expire before the meeting of the next General Assembly. The Senate rejected the House bill making an appropriation of \$125,000 for the ordinary and contingent expenses of the Illinois National Guard, with the Senate amendment making a permanent Northern camp, was passed. The bill appropriating \$2,500 to reimburse certain parties for damages sustained by them in repairing the damages caused by the fire at the State House in 1886, was passed. The House bill authorizing Recorders of Deeds, in such counties where such office is desired, to keep abstracts, to make abstracts of title, and fixing the fees and compensation therefor, was passed. The House bill giving to soldiers who are inmates of the poor house the preference of admission to the Soldiers' Home in Quincy, was passed.

Senator Eckhardt called up, and read a third time, and passed the House bill authorizing Recorders of Deeds to make abstracts. A motion to reconsider was made and laid upon the table. Pending concurrence in the House amendments to the general appropriation bill, which was concurred in, and the bill passed three readings. The President appointed as a conference committee Senators Curtis, Funk, and Shurt. Two Yeoman Revenue bill came up on second reading as a special order. The committee amendments were adopted and the bill was read a third time. The Senate concurred in the House amendments to the bill providing for the pay of the militia and to the bill changing the time of holding county court to the first Monday of the month.

The last half of the session evidenced what may be looked upon the closing hours to day and to-morrow. In their eagerness to obtain recognition from the Chair the Senators clustered around the secretary's desk and created such a confusion that the president was compelled to suspend proceedings until the Senators resumed their seats. Senator Evans sought to have the rules suspended to take up the House bill appropriating \$175,000 to the insane asylum at Joliet, and the bill was read a third time and passed. The Senate concurred in the House amendments to the bill appropriating \$2,500 to reimburse certain parties for damages sustained by them in repairing the damages caused by the fire at the State House in 1886, was passed. The House bill authorizing Recorders of Deeds, in such counties where such office is desired, to keep abstracts, to make abstracts of title, and fixing the fees and compensation therefor, was passed. The House bill giving to soldiers who are inmates of the poor house the preference of admission to the Soldiers' Home in Quincy, was passed.

Nearly the entire afternoon session of the Senate was spent in consideration of the amendments to the general appropriation bill, which was concurred in, and the bill passed three readings. The President appointed as a conference committee Senators Curtis, Funk, and Shurt. Two Yeoman Revenue bill came up on second reading as a special order. The committee amendments were adopted and the bill was read a third time. The Senate concurred in the House amendments to the bill providing for the pay of the militia and to the bill changing the time of holding county court to the first Monday of the month.

The last half of the session evidenced what may be looked upon the closing hours to day and to-morrow. In their eagerness to obtain recognition from the Chair the Senators clustered around the secretary's desk and created such a confusion that the president was compelled to suspend proceedings until the Senators resumed their seats. Senator Evans sought to have the rules suspended to take up the House bill appropriating \$175,000 to the insane asylum at Joliet, and the bill was read a third time and passed. The House bill giving to soldiers who are inmates of the poor house the preference of admission to the Soldiers' Home in Quincy, was passed.

The Chicago Carpenters. CHICAGO, June 14.—There were but few incidents at the carpenters' meeting yesterday that would lead to the belief that anything in the nature of a repetition of former troubles were in progress. Secretary John Bennett said: "I have not yet heard how many men will be affected by the enforcement of the new law. I can only say we can't approximate the number." A large portion of the carpenters will not quit work because work is scarce, owing to the general stagnation of the building trade, and inasmuch as they are not paid for work done to another strike or lock-out. Some of them express their willingness to work as many hours as they are paid for, irrespective of union beliefs. Several contractors with large buildings on hand discharged their men on Saturday, not having any further need of them.

Canadian Crop Prospects. MONTREAL, Can., June 14.—The Canadian Pacific Railway Company has collected crop reports from all points of the Northwest and Manitoba, and with hardly a single exception the prospects are said to be very much better than last year. A plentiful harvest is expected. In British Columbia several other places in that vicinity there had been no rain since May 29, and the crops are very backward on that account, but on Friday night and Saturday there were heavy rainstorms all over the country, followed by warm weather. Reports from all sources yesterday were unanimous in saying that the crops were never better since the country was settled. Wheat in some places is seven weeks ahead. Farmers and business men never felt more confident of a good crop than at present.

Four Drawings in Three Days. KANSAS, Mo., June 14.—Four persons have been drowned in this section since Saturday morning—Samuel Wells, a boy, in Toombs lake, Atchison county, while fishing; Frank Lee, aged 13, while bathing near Decatur; Willie Keck, aged 13, while bathing near Decatur; and Henry's lake yesterday, near Lawrence, and Frank Morris, aged 45, in Pine lake, near Plattsmouth, yesterday. Morris was out boating with William Hubbard and fell overboard into three feet of water. Three bottles of kerosene were in the boat, and the suggestion that the men were drunk and unable to help each other or themselves.

Blew Out the Gas. NEW YORK, June 14.—Thomas Stevens, aged 45 years, and his wife, from Denver, Colo., guests at the Occidental Hotel in the Bowery were discovered in their room yesterday morning unconscious and all but smothered by gas. They had apparently blown out the gas instead of turning it off, when retiring. They were removed to St. Vincent's hospital, and energetic measures taken to revive them. It is probable they will recover. The Stevens were on their way to Europe. They had a quiet family life, and stopped in the city for a day or two to see the sights.

Five Men Wounded at Adams. CHICAGO, Mo., June 14.—At South Pittsburg, a mining hamlet four miles from here, a horrible accident occurred about 4 o'clock Monday afternoon. While a chamber in the mine was crowded with workmen a box of dynamite in some suspicious manner was exploded, and five men were blown to atoms, while ten or twelve others were terribly injured.

At Night always have. NEW YORK, June 14.—The only child of the late John A. C. Ackers' baby, who died last night, will be buried in the city. It contains no Opium or Morphine, but gives the child natural ease from pain. Price 25 cents. Sold by Sold by Prentice & Evenson, O. P. O.

CONDENSED DISPATCHES.

It is believed that Dr. McGlynn has cut loose from Boston.

Bulletins of Emperor William's condition indicate decided improvement. One vacant seat remained in the jury box in the Juke Sharp trial at adjournment of court.

Ex-Secretary Manning has assumed charge of his business affairs again, after four months' rest.

Mrs. Wm. Ball, aged 35, was brutally murdered Monday by three unknown scoundrels at Eaton, Ohio.

A. J. Henderson and J. P. Shan engaged in a hand-to-hand fight in front of a church Sunday evening in Lafayette, Ind.

Crown Prince Frederick William of Germany has left Berlin for London to take part in the Queen's jubilee celebration.

There have been two new cases of yellow fever since Sunday, and one patient has been discharged from the hospital at Key West.

Irwin Miller, a Justice of the Peace of Richland Township, near Fowler, Ind., hanged himself Monday. He was 45 years old.

John H. Turbell, convicted of shooting his wife while riding in a buggy from Caldwell's Prairie to Lyons, Wis., has been sentenced to two years of servitude.

Later developments show the losses of the Havensayer Sugar Refinery company of New York by the great fire of Saturday morning, are about \$2,000,000 less than \$1,000,000.

The Soldiers' Orphan's Home at Bloomington, Ill., Monday passed into the hands of the State of Illinois, under the supervision of the State Board of Charities and Public Welfare.

Two Stables Burned. Disastrous Fire in St. Louis—Large Stable and the Loretto Breeding Company on the corner of Cass avenue and 15th street, was gutted by fire, involving a loss of about \$15,000. A half-dozen valuable draft horses were burned. Several teamsters who lived in the upper part of the building lost all their effects.

Almost simultaneously fire broke out in the extensive stables of the City Street-car company on Glasgow and Jefferson avenues and they burned furiously. The stable, valued at \$25,000, is destroyed, of 40 small stables valued at \$75 each, only thirty-five were rescued; 300 sets of harness were destroyed, and a large amount of feed was consumed. No cars were destroyed or damaged; insurance not yet obtainable.

Another Road Robbed by Employees. CHICAGO, Neb., June 14.—The discovery has just been made that the conductors and brakemen on the Union Pacific road have been carrying out a systematic scheme of robbery like that exposed some months ago on the Pennsylvania road. The officials have been suspicious for a long time that something of the kind was going on, and last winter discharged several men, but they have been unable to get a positive clew until now. Last night a car was broken open at Central City and \$15 worth of goods taken. From it a telegram was received by an officer here to-night giving a list of the stolen property and also stating that the thieves had been spotted. Several robberies of the same character have been committed at Central City and it seems that the crews running the train from Chicago are the most deeply involved.

A Mysterious Shooting. PITTSBURGH, Pa., June 14.—Mary Ann Valentine, daughter of George Valentine of Bangor, Me., was found last night lying on the sidewalk a short distance from her home in an insensible condition, with a bullet-hole near the right eye. She had left the house shortly after supper to meet her father, carrying a bag with her, and some money that Mr. Valentine wanted to use at a building and loan association meeting. No one saw the shooting, but Fritz Weyman, a German, who was seen in that neighborhood intoxicated, was suspected. He was found at Shurpsburg, a mile from Bangor, and had in his possession a revolver when arrested. Miss Valentine is still living, but her recovery is considered impossible. Weyman denies the shooting.

A Woman on Trial for Murder. SPRINGFIELD, Mo., June 14.—The trial of Cora Lee for the murder of Sarah Graham began here Monday morning. The attendance is large and inquiries from many parts of the country show that interest in the case has not subsided, although it has not been as intense as when the parties charged with the crime were first arrested. The jury was secured without difficulty. Several witnesses were examined, but nothing elicited that the public was not made familiar with at the time of the preliminary examination. It is understood that the defendant will go upon the stand herself before the trial closes. Judge John is presiding.

A Louisville Lady's Tragic Death. LOUISVILLE, Ky., June 14.—At an early hour yesterday morning Mr. A. Glazebrook was awakened by a noise in the bedroom of his wife, which he joined in his own residence on Von Borries avenue, this city. Upon entering, he found the room unoccupied, and going to the window, which was open, he saw a prostrate form upon the ground below. Investigation proved it to be that of his wife, who expired shortly after being carried into the house. It is thought she walked out of the window in her sleep, and lost her balance while opening the shutters.

Fatal Train Accident. MARQUETTE, Mich., June 14.—Robert Parker, a brakeman on the Chicago & North-western railroad, was killed Monday near Norway, Mich. A draw-bar breaking threw him on the track, the entire train passing over him. The train broke in two a second time, and in trying to catch the detached portion a switch was misplaced and the train ran into the track. Norway station being greatly damaged. Many cars were smashed. The loaded cars were piled on the station platform. Traffic was delayed all day.

Michigan Law Makers. LANSING, Mich., June 14.—Both Houses convened Monday night, but remained in session less than thirty minutes. The House was without a quorum and at once adjourned. The Senate continued reading the bill providing the inmates of the Soldiers' Home at Quincy to vote at the home. It was advanced to third reading and the house adjourned until morning.

Family Poisoned by Strawberries. ERIE, Pa., June 14.—The family of Isaac Rosenzweig is lying prostrate as the result of some mysterious poisoning. His wife and Mrs. Rosenzweig and their two sons, Edward and Whitney, were stricken after eating some strawberries. Edward lies at the point of death, while the others will recover.

Careful attention to the diet is the best guard against disease. It is a fact which all should know, that over-eating not only corrupts the blood but destroys nerve force, and induces dyspepsia, indigestion, bad breath, piles, phlegm, and liver troubles. Dr. Jones' Red Clover Tonic quickly cures the above diseases. Can be taken by the most delicate. Price fifty cents. Sold by Prentice & Evenson.

Advice to Mothers. Mrs. Wisniewski's newborn child should always be used for children to take. It soothes the child, cures the colic, allays all pain, gives him sleep, and is the best remedy for diarrhoea, etc., a bottle.
